ALASKOMEGA®

Organic Technologies / AlaskOmega

Organic Technologies produces a line of AlaskOmega® ingredients primarily for dietary supplement and food markets.

Our Omega-3 and Omega-7 product forms include natural fish oils (nTG), ethyl esters (EE), and triglyceride (TG) concentrates. We produce AlaskOmega® Omega-3 concentrates of up to 85% Omega-3 purity and 70% Omega-7 purity.

Our wild Alaskan source is certified sustainable by the Marine Stewardship Council (MSC) (Chain of Custody MSC-C-55212). AlaskOmega® Omega-3 and Omega-7 concentrates are 100% sourced and made in the USA.

Family owned and operated in Coshocton, OH since 1981, Organic Technologies has a rich bulk ingredient manufacturing history. Our Omega-3, Omega-7, sterols, tocopherols, and other nutritional lipids are manufactured in our NSF-certified for GMP (Dietary Supplements) manufacturing facility in Coshocton, OH.
